

CentraLease
POWERED BY CRI Advanced Analytics

Centralize your lease processes with CentraLease powered by CRI Advanced Analytics.

Automated.

- CentraLease initiates automation the moment data is populated. The software adeptly highlights pivotal deadlines, elucidates lease terms, and ensures overarching compliance with GASB Statements 87 and 96, alongside the relevant FASB standards. This autonomous, worry-free lease management solution not only streamlines the compliance trajectory but also furnishes a manageable portfolio of essential information, including payment dates, and contact information for lessors, lessees, and vendors, among others.

Centralized.

- CentraLease offers a unified platform to centralize lease agreements and data, granting streamlined access to retrievable and actionable information. This client-centric software ensures lease data is meticulously centralized, effortlessly configurable, and fundamentally simplistic, catering to business professionals pursuing an untroubled lease compliance experience. The platform accommodates GASB and FASB standards, ensuring a broad spectrum of regulatory compliance.

Compliant.

- Embark on a digital journey with CentraLease's cloud-based setup, accelerating your adherence to GASB and FASB lease accounting standards through agile compliance navigation. The digitization and centralization of contracts in a cloud-based repository significantly diminish operational expenses and expedite compliance.

Optimized.

- Bypass the learning curve with CentraLease's optimized dashboard, facilitating immediate engagement. It serves as a comprehensive guide to navigating the intricate mandates of GASB and FASB concerning leases, delineated in a clear and user-friendly manner. The dashboard is engineered to expedite the understanding and navigation through the regulatory landscape.

CentraLease, powered by CRI Advanced Analytics, is a scrupulous accounting software engineered to seamlessly adhere to GASB Statements 87 and 96 and FASB standards concerning leases and SBITAs. Its user-centric interface facilitates effortless navigation through complex regulatory paradigms, rendering compliance an uncomplicated endeavor for business professionals. By centralizing and digitalizing lease agreements and data within an online platform, CentraLease furnishes a manageable portfolio of vital information, such as payment dates and contact details for lessors, lessees, and vendors, accessible with a single click.

Exceeding mere compliance, CentraLease fosters streamlined, cost-effective leasing and IT subscription processes. Its cloud-based repository automates key facets of lease management, spotlighting essential deadlines and simplifying lease terms post-data input. Unlike conventional methods prone to human error, CentraLease's robust lease management and tracking capabilities transcend limitations by offering automated reporting for deeper financial insights, critical date alerts to identify and rectify issues preemptively, and a secure cloud-based database ensuring data integrity and accessibility anywhere with internet connectivity.
