

CentraLease
POWERED BY CRI Advanced Analytics

GASB & FASB compliance made easy with CentraLease powered by CRI Advanced Analytics

Centralized.

- Access all of your lease data in one central repository. CentraLease allows for convenient and organized input through a client-focused software.

Optimized.

- Modular programming coupled with a user-friendly interface provides stylish and comfortable optimization. The CentraLease dashboard is as easily navigable as it is useful.

Automated.

- Hands-off, worry-free lease management. Once data is input, CentraLease automatically highlights important deadlines, simplifies lease terms, and ensures overall compliance.

Cost-effective.

- Fast, easy, cloud-based setup allows for cost-effective maneuvering.

CentraLease allows you to maintain compliance with ease by utilizing highly centralized, effortlessly configurable, and fundamentally simplistic lease data. Our user-friendly software, powered by CRI Advanced Analytics, caters to those business professionals looking for a hassle-free lease compliance experience.

Centrally locating your lease agreements within our online platform provides you with access to retrievable and actionable data with just one-click. Additionally, the digitization of contracts supplies the user with a manageable portfolio of key information including payment dates, contact information, and much more.

Centralize your lease processes with CentraLease powered by CRI Advanced Analytics.
